

A romantic scene featuring a couple kissing in a large, dark-colored hot tub. They are positioned in the middle ground, with the woman on the left and the man on the right. The background is a dramatic sunset with a sky filled with orange and yellow clouds. In the foreground on the left, a portion of a rusted metal outdoor heater is visible, with the brand name 'Welteevree' inscribed on it. The overall mood is cozy and intimate.

OUTDOOR

DARLING,
LET'S BE
ADVENTUROUS

As a design team, we stand for sustainable design and produce a collection of products that enhance your environment. In designing our products we search for both comfort and adventure. Our team of dedicated designers are all collectively attracted to the Welteevree mentality.

The discovery and freedom we find in being outdoors is reflected, not only, in our classic products like the Dutchtub & the Outdooroven, but also with new products like the the Swing by Thor ter Kulve. Together we present the Welteevree Outdoor Collection.

DUTCHTUB ORIGINAL
BOUNDLESS BATHING

DUTCHTUB ORIGINAL

by Floris Schoonderbeek

With the Dutchtub you can explore and enjoy with the essence of outdoor bathing. This award winning hot tub is pure luxury and works in a surprisingly simple way: using wood fire and natural circulation. An intelligent construction that combines sturdy and long lasting materials that allow you to use the Dutchtub anytime, anywhere...

DUTHTUB ORIGINAL
BOUNDLESS BATHING

DUTCHTUB LOVESEAT
OUTDOOR ROMANCE

DUTCHTUB LOVESEAT

by Floris Schoonderbeek

The Dutchtub Loveseat is a 2-person wood fired hot tub. Its simple construction makes the unique experience of outdoor bathing more accessible. With less water, less wood and a more efficient use of space, the Dutchtub Loveseat is ideal for smaller spaces and more intimate soaking.

DUTCHTUB WOOD
A PURE AND GENUINE FEELING

DUTCHTUB WOOD

by Floris Schoonderbeek

Luxury does not have to be complex. In fact, it can be quite simple. The Dutchtub collection, including the Dutchtub Wood, all function simply by using a wood fired stove to heat the water and allowing natural circulation to move it through the stainless steel coil. The Dutchtub Wood combines an interior of the same high quality polyester as the other tubs with a durable preserved wood exterior, making it weather proof and light-weight. The natural look arouses a pure and genuine feeling. With the Dutchtub Wood you can really create your own spot!

Choose your own color
For an extra charge we can deliver the Dutch Tub Original in any RAL color.

Wood fired

The Dutch Tub is a wood fired outdoor hot tub: a fire in the coil warms the water in the tub. Natural circulation causes the colder water at the bottom of the Dutch Tub to go in the coil, heat up and flow out at the top.

Lightweight

The Dutch Tub weighs only 75 kilo - this makes the tub a lightweight and therefore mobile outdoor hot tub. The Dutch Tub is easy to lift with 2 people, can be fixed to the roof of a car or even tied behind a canoe or bike.

Durability

Each Dutch Tub is handmade in Holland and uniquely numbered. The Dutch Tub is made from high-quality polyester: a sturdy and long-lasting material. The polyester is also weather-proof and colorfast so the tub can stay outdoors all year round.

Includes

The Dutch Tub Original is delivered standard with a cover, a fire basket, a turbo valve and a special Dutch Tub wok which keeps the heat of the fire in the coil.

Weight

75 kg / 165 lbs

Capacity

650 liter / 171 gallon
suitable for 4 persons

Materials

Glass Fibre Polyester,
Stainless Steel 316

SIDE VIEW MEASUREMENTS & WATER CIRCULATION

Material

The Dutchtub Wood is made of Plato® wood. Plato® uses fast growing timber from sustainably managed forests.

Dutchtub Wood Drain

A connection for your garden hose at the bottom of the tub. You can easily water the plants after bathing.

Dutchtub Wood Table

For serving your drinks or having your wood stock nearby. Available as an accessory.

DUTCHTUB ACCESSORIES

Dutch tub Loveseat Cover

Material: Glass Fibre Polyester

Function: The Dutch tub Cover keeps the warmth in the tub during the heating of the Dutch tub so the tub heats faster. In addition, the Cover keeps the Dutch tub clean when the tub is not in use.

Available for: Dutch tub Loveseat

Dutch tub Wintercover

Material: Glass Fibre Polyester

Function: The Wintercover is extra insulated and provides a faster heating process during cold temperatures.

Advised: At temperatures of 5 degrees or less. The Wintercover will be delivered in the color of your Dutch tub.

Available for: Dutch tub Original and Wood

Dutch tub Chimney

Material: Stainless steel

Function: Accelerates the heating process and guides the smoke. Stokes more efficiently and therefore less uses of wood.

Advised: for use in cold conditions.

Available for: Dutch tub Original, Loveseat and Wood

Dutch tub Handtrailer

Material: Anodized aluminium

Function: For easy walking transport by hand of the Dutch tub Original.

Available for: Dutch tub Original

Dutch tub Windscreen

Material: Stainless steel

Function: Protects the fire from natural forces.

Advised: for windy and cold conditions.

Available for: Dutch tub Original, Loveseat and Wood

Dutch tub Ashtray

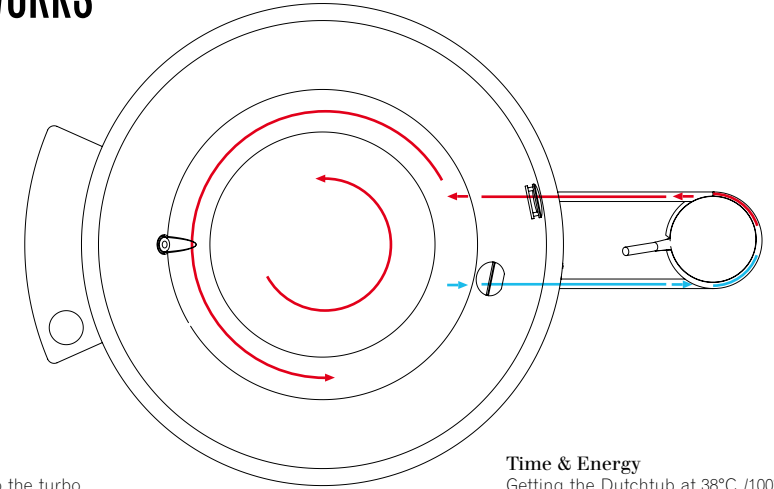

Material: Stainless steel

Function: Collects ashes underneath the heating coil.

Advised: for use on a terrace.

Available for: Dutch tub Original and Wood

DUTCHTUB HOW IT WORKS

How it works

- 1 Connect the hose to the turbo connection and fill the tub just above the logo plate.
- 2 Chop the wood and make a fire in the coil.
- 3 Place the wok on the fire to keep the heat in the spiral.
- 4 Put the cover on the tub.
- 5 Stir the water regularly and keep the fire burning.
- 6 When 38°C / 100°F and ready for use, enjoy! Keep the fire small when the temperature is comfortable.

Time & Energy

Getting the Dutch tub at 38°C / 100°F ± 2 hour, ± 2 bags / 2 cubic ft of firewood.

Keeping the Dutch tub at 38°C/100°F ± 1 bag / 1 cubic ft of firewood for 4 hours.

The time & energy needed for heating the Dutch tub depends on the temperature of the water and the outside air, the quality of the firewood and the ability to make a proper fire.

Dutch tub Rubber plug

The rubber plug is used in combination with the turbo and as stopper for the water cooler.

Dutch tub Turbo Valve

The turbo can be used to accelerate the heating process in combination with rubber plug.

Dutch tub Logo Shield

Protects you from hot water which comes out of the coil.

OUTDOOROVEN
EATING OUT-OF-DOORS ALL YEAR ROUND

OUTDOOROVEN

by Vanhoffontwerpen

With the Outdooroven, Weltevre makes cooking an outdoor activity. We want to prolong the outdoor season and be able to enjoy out-of-doors eating and living all year round. The additional Cookbook shows you the possibilities, joy and quality of outdoor cooking with the Outdooroven.

OUTDOOROVEN
EATING OUT-OF-DOORS ALL YEAR ROUND

TECHNICAL SPECIFICATIONS

OUTDOOROVEN

by Vanhoffontwerpen

Wood fired

The Outdooroven is a wood fired outdoor cooker and heater. The perforated baseplate provides the fire with extra air.

Cookbook

The Outdooroven comes with the Outdooroven Cookbook, a book filled with recipes for spring, summer, autumn and winter to cook outdoors the whole year round using seasonal products.

Weight

35 kg / 77 lbs

Oven compartment

Height 19 cm / 7,5 inch
Width 31 cm / 12 inch
Length 33 cm / 13 inch

Firebrick

Height 3 cm / 1 inch
Width 30 cm / 12 inch
Length 30 cm / 12 inch

Draining

The top plate of the Outdooroven is slightly tilted and has two gaps at the back, so rainwater can drain from the top of the Outdooroven.

Accessories

1. Chimney cowl: The chimney cap protects the pipe from rain and you can put the cap in the right direction for the wind.

2. Outdooroven Door: The Outdooroven Door fits on any Outdooroven (new and already in use). When using the Door the temperature in the oven gets higher and it channels the smoke upwards. Next to that you will burn less wood, it's more efficient.

3. Pizza shovel: For baking pizza in the Outdooroven. Also a useful tool to retrieve breads and casseroles.

4. Thermometer: Magnetic thermometer to use in the Outdooroven. You can heat up the oven to the right temperature.

OUTDOOROVEN PLEASANT GARDEN HEATER

Corten® steel

The Outdooroven is made of Corten® steel - a special type of steel with an oxidized layer that protects the metal against rust.

OUTDOOROVEN GRILL FOR GRILLING YOUR FAVORITE DISH

BBQ & grill

The Outdooroven has a grill rack you can place above the smoldering embers to grill and roast your meat, fish or vegetables.

ACCESSORIES CHIMNEY COWL & ADDITIONAL DOOR

Oven & stove

The Outdooroven has a closable oven for bread or casserole for example, and a special baking stone for cooking pizzas. The top of the Outdooroven is a stove.

TECHNICAL SPECIFICATIONS

OUTDOOROVEN XL

by Vanhoffontwerpen

With the Outdooroven XL you'll own a complete outdoor kitchen. The many options make it possible to cook all kinds of food in different technics.

Wood fired

The Outdooroven XL is a wood fired outdoor cooker.

Oven XL

One of the specialties of the Outdooroven XL is the large pizza oven with a special fire brick for cooking pizzas. Due to the extra large closable compartment, you can now make a pizza for the whole family!

Charcoal

Another feature is the fire cage for charcoal production. When the fire burns, the charcoal falls down. Move the charcoal to the right, into the compartment in order to heat it. On the grill it's possible to cook some delicious meals, like fish and meat. When the cap is opened it can be used as a BBQ and when it's closed it turns into a smoker.

Base option

There are several base options available or you choose for free-standing model. The Outdooroven XL is standard delivered without a base.

Weight

50 kg / 110 lbs

Oven compartment

Height 19 cm / 7,5 inch
Width 36 cm / 14 inch
Length 37 cm / 15 inch

Firebrick

Height 3 cm / 1 inch
Width 35 cm / 14 inch
Length 35 cm / 14 inch

Available accessories

Chimney Cowl, Pizza Shovel, Thermometer, Charcoal tool

OUTDOOROVEN XL A COMPLETE OUTDOOR KITCHEN

OUTDOOROVEN XL EXTRA LARGE OVEN & GRILL

Corten® steel

The Outdooroven XL is made of Corten® steel - a special type of steel with an oxidized layer that protects the metal against rust.

Charcoal

Slide the charcoal, which falls through the fire cage, to the right in the BBQ and grill part. You can grill or smoke your meat, fish or vegetables.

BBQ-grill & Smoker

The grill and BBQ have a height adjustable stainless steel grill rack. You can smoke your fish or meat by closing the big cap.

Weltevree
WHEELBENCH

**AN
ACTIVE
INVITATION**

WHEELBENCH

by Rogier Martens

A mobile bench, made of oak wood with a built-in wheelbarrow wheel. The surprising combination of familiar elements strengthens the active outdoor feel of the bench.

Rogier Martens about the Wheelbench: "Moving a bench with two people has always been a chore... This is a bench you can easily manoeuvre into position. The eye-catching wheel is an invitation to find the best spot. An invitation to be active, to create your world the way you want it, time and time again."

TECHNICAL SPECIFICATIONS

**FORESTRY TABLE
& BENCH**

**DUTCH DINING.
ROUGH YET
SOPHISTICATED**

FORESTRY TABLE

DUTCH DINING, ROUGH YET SOPHISTICATED

FORESTRY TABLE & BENCH

by Floris Schoonderbeek

The Forestry table is a family table made with local wood from the National Forests in Holland. Weltevrede designed the table in collaboration with the Dutch National Forestry, to celebrate the quality of local wood and the joy of being outdoors.

The Forestry table is something between a rough picnic table and a sophisticated dinner table. This nice balance suits both the indoors and outdoors. The design of the table is all about the clever details: Floris Schoonderbeek designed a technical joint to construct the table out of basic planks of timber. This way, the focus is on the beauty of the local wood - Douglas timber. After all, the trees are grown in 30 years, and we believe that the table lasts at least that long...

The Forestry table is available in 6 -, 8 - or 12-person version. The matching Forestry benches come in 2 sizes.

TECHNICAL SPECIFICATIONS FORESTRY TABLE & BENCH

by Floris Schoonderbeek

Weight

6 persons - 70 kg / 154 lbs
8 persons - 100 kg / 220 lbs
12 persons - 150 kg / 330 lbs

Material

Douglas from the Dutch
National Forestry
Galvanized steel

Optional

The matching Forestry bench(es)
3 persons - 27 kg / 60 lbs
160 x 40 x 45 cm / 63 x 16 x 18 inch
4 persons- 35 kg / 77 lbs
235 x 40 x 45 cm / 92 x 16 x 18 inch

Delivery

Assembled, on a pallet

Maintenance

The Forestry Table is delivered untreated. You can treat the wood with oil or impregnate it yourself to preserve its color. If you do not treat the wood, it will turn grey.

Douglas Wood

The wood used for the Forestry table comes from the Douglas fir out of the Dutch National Forestry. Untreated Douglas wood has a naturally high durability and is environmentally friendly. With Douglas wood, shapes may vary; every slab has its own character.

Douglas wood

Made of wood out of the Dutch
National Forestry.

Galvanized steel

Butterfly construction.

Connections

The Butterflies keep the two slabs together and prevents sagging of the table top.
